Carpenter-Goodwin.

A pretty wedding took place yesterday in Clifton Forge, when Miss Sallie Billingsley Goodwin was married to Walter Alexander Carpenter, of Roanoke, son of Mr. and Mrs. William A. Carpenter. The maids of honor—Misses Mayo Carpenter and Elsie Phillips, of Richmond—were pink satin, draped in Marquisette and trimmed with lace and pearls. The bridesmaids, were pink Marquisette, with crystal trimmings, and Miss Mary Wise Carpenter was ring-bearer. The bride was veiled in satin, trimmed in chintilly lace and embroidered in pearls. Her veil was caught with orange blossoms. Courtney Carpenter was the best man. A reception was given by the bride party and a few intimate friends.

Meeting of Confederate Women.

It was announced at the meeting of the United Daughters of the Confederacy in Lee Camp Hall that the committee in charge of the relief fund created at the last convention of the Virginia division has now been formed, and circular letters sent out stating that contributions may be sent in so that the work of relieving the poor and needy Confederate women throughout the State may proceed at once.

The completion of this committee, of which Mrs. J. W. Taylor, of this city, is treasurer, and which is composed of prominent daughters of the Confederacy from different chapters, brings up an important section of the last convention in October in Suffolk. At that time the Home for Needy Confederate Women through its president, Mr. A. J. Montague applied to the Virginia division for an annual appropriation to be added to the endowment fund and to help in the support of the home. The request of the home was denied on the grounds that money contributed by the daughters would go to the aid of generations yet unborn, rather than to the immediate relief of the many destitute women now clamoring for aid, and who are dying on every year.

WARD DECLINES TO BE CANDIDATE

Senator From Frederick Will Let Shenandoah Have Nomination.

With many expressions of regret, State political circles and the visiting members of the Legislature in the city yesterday learned of the determination of Senator Robert Montgomery Ward, of Winchester, not to be a candidate for re-election to the State Senate from the Tenth District. Jurgens, in the comments made, few men in the general assembly of Virginia have more friends.

Senator Ward says in a communication to a friend that it has been customary for the Senator to be elected alternately from Frederick and Shenandoah counties, which, with Winchester, compose the district. He believes it to be conducive to good feeling and therefore to the best interests of the district that this system be continued, and therefore he will not be a candidate, allowing the nomination to go to some son of Shenandoah.

While at no times obtrusive, Senator Ward had much influence in the Legislature among the members who knew him and who respected his ability and character.

INCOME TAX BILL WILL BE RATIFIED

Joint Resolution for Amendment to Constitution Passes House.

KENT MEASURE AMENDED

Favorable Report on Proposition to Increase Number of Judicial Districts.

[Special to The Times-Dispatch.] Raleigh, N. C., February 8.—The House passed the Joint Resolution for the ratification of the amendment to the Federal Constitution for the income tax by a large majority, and it was ordered enrolled for ratification. The Ross bill to require insurers in unlicensed companies to pay the 5 percent State tax on premiums was passed on final reading, after a long argument, but it was found that the amendments had not been put to a vote, and the whole matter had to be reopened, with the result that the House adjourned before the final vote was taken again.

Dr. Kent's House bill to prohibit the sale of near-beer, bearing or other like rights in North Carolina, received favorable report from the Senate Committee on Propositions and Grievances this evening with an amendment defining more clearly the character of preparations druggists will be permitted to sell.

Club Locker System. Senator Brown's bill prohibiting the handling of liquors by clubs has been considered and awaits a vote by the committee, which seems likely to report favorably on it. This is the bill designed to abolish the club locker system.

The bill of Senator Hobgood, of Guilford, to divide the State into twenty judicial districts has received a favorable report from the joint Senate and House Committees on Judicial Districts, and if passed, the committees will then redistrict the State so as to relieve the congested dockets of Superior Courts in many counties by the work of the four additional judges.

The Senate Committee on Legislative Apportionment has begun its work by the appointment of a subcommittee consisting of Senators Thorne, chairman; Pharr, Bassett, Hicks and Martin, of Buncombe.

Next Thursday has been set by the Senate Committee on Fish and Fisheries as a time for a hearing on the bill to regulate fishing in the Albemarle Sound and Roanoke River. The committee has agreed to report favorably on a number of local bills.

The joint Senate and House committees on Appropriations have given a hearing on Senator Sikes's bill to prohibit the regimental encampments of the North Carolina National Guard will be held this summer at Camp Glenn, Morehead City, and one or more of the three North Carolina regiments will probably take practice marches. The walking and driving of the Camp Glenn will be improved. The Legislature will be asked to make certain changes in the militia law of the State.

The North Carolina Historical Commission has been authorized by Hon. Francis D. Winston, chairman of the Grand Lodge of Masons, to raise a fund for the erection in the Capitol of a bust of Governor Samuel Johnston and to make a contract for the execution of the work. By the time the bust is completed the money will be in hand. Frederick W. Ruckstuhl, the artist who made the busts of Governor General Robinson, is now in Paris, engaged in making a statue of the late Dr. Charles D. Mciver and a magnificent monument to the women of the Confederacy for the State of South Carolina.

Discussing the proposition suggested by a Washington correspondent from the House of Representatives, which reduces the number of congressmen elects to which North Carolina is entitled, the State will not be distracted, but nine Congressmen will simply be elected from the State at large. Senator Bassett takes the view that this might be a good politics in so far as to insure the election of many Democrats to Congress from this State, but he does not believe this would be good policy, for the reason that the Congressmen so elected could not keep in touch with their constituency as at present, and that while this would be a great relief to those who make the congressional race in the districts in the Western part of the State, he thinks the opposition would be too great for such a course to be pursued. The present session of Congress, he says, will expire by adjournment on the night of March 4, and the General Assembly will very likely be in session several days after that date, giving ample time to redistrict the State in case the bill passes Congress cutting down North Carolina's representation.

NEW PLANT FOR ROANOKE. [Special to The Times-Dispatch.] Roanoke, Va., February 8.—The Consolidated Tramway Company Elects Its Officers.

[Special to The Times-Dispatch.] Roanoke, Va., February 8.—The Consolidated Tramway met to-day and elected the following officers and directors: W. C. Gairlight, president; L. B. Keen Claggett, Baltimore, secretary and treasurer; Directors—O. A. Kearns, J. E. Alton, E. W. Speed, M. J. Caldwell and Oliver Hobbittell, of Baltimore, chairman of the board. Those present subscribed \$15,000 for the establishment of a plant here for the manufacture of the product, an equipment for loading and dumping. The remainder of the \$10,000 required problem will be subscribed by the other stockholders. There is no doubt of the success of the plant at an early date. Roanoke was given preference over Eastern Pennsylvania and other localities, which made strong bids for the enterprise.

POST-OFFICE FIGHT ENDS. Patton's Nomination for Lexington Official Confirmed by Senate.

[Special to The Times-Dispatch.] Lexington, Va., February 8.—Postmaster Edmund Patton's nomination for postmaster at Lexington was confirmed by the United States Senate Wednesday, February 1. The nomination was given by President Taft December 2, 1910, his term having expired June 2, 1910.

This has ended a long and strenuous fight for the Lexington office. Former Postmaster J. P. Ackerly made a fight for the appointment, claiming Confederate service support. Postmaster Edmund Patton, on the other hand, had the backing of Hon. Royal E. Cabell, head of the United States Internal Revenue Department, and of Senators Brown, Allen, of Staunton, and of the district and county Republican committees, behind a strong petition of the business men of Lexington.

Congress made an appropriation two years ago for \$60,000 for a new post-office building, which is expected to be completed next year. The lot has already been purchased and Architect Flournoy, of Washington, is now preparing the plans. Work on the new building is expected to begin this summer.

MAY RECONSIDER WHARF REJECTION

Failure to Act Will Mean Another Long Delay in City's Much Discussed Plan.

Vigorous efforts will be made at a meeting of the Common Council tonight to secure a reconsideration of the vote by which the Council on Monday night rejected the James River wharf proposition. The proposition was lost by four votes. Under the rules it required two-thirds of the total number of members, which is forty in the lower branch, making twenty-seven votes required. The vote stood twenty-three ayes, twelve noes and five absent.

A member of the Council said yesterday that the question of reconsideration will be squarely before the Council—wharf or no wharf.

Personally, this member said he had favored erecting a cheap wooden wharf suitable for present needs, and which could be ripped out later and replaced with more permanent construction if the shipping justified it. Any wharf, he thought, was an experiment, and the experiment should be made before concrete construction was demanded.

However, he said, that is not the question at issue. The Council rejected a plan for a wooden pile wharf, directed that bids be secured on a concrete construction, and the award of contract is now up for rejection or approval. The action is final either way.

Means Further Delays. If the Council refuses to reconsider, or reconsiders and again rejects the proposition, it will not be again introduced for some time, and when offered will have to go through the same interminable routine from committee to committee, which has been in discussion in one form and another for the past two years without final action.

One the other hand, if the action taken is favorable, it will remain only for the Board of Aldermen to concur, when the approval of the Mayor will put the James River Commission in a position to sign the contract and authorize the work to proceed. If the wharf award is again thrown out, it is expected that the whole project for East End improvement, including the building of a new street to Fulton on high as to insure the election of many Democrats to Congress from this State, but he does not believe this would be good policy, for the reason that the Congressmen so elected could not keep in touch with their constituency as at present, and that while this would be a great relief to those who make the congressional race in the districts in the Western part of the State, he thinks the opposition would be too great for such a course to be pursued.
